

## Mini Grant Program

The Kent County Oral Health Coalition (KCOHC) is continuing its Mini Grant program for a third year. We will award up to three community nonprofit organizations up to \$2,000.00 each for projects that increase or improve oral health access, education, or awareness. Applicants must be community-based 501c3 organizations within Kent County.

Attached you will find the Request for Proposal, grant rubric, grant timeline, and KCOHC informational for your review. Applications must be submitted to Shannon Kaza, Oral Health Coordinator, at [skaza@healthnetwm.org](mailto:skaza@healthnetwm.org) by **11:59 p.m. Friday, June 28, 2019**.

The Kent County Oral Health Coalition is a growing partnership of people, agencies, and funders working to improve oral health and access to care for Kent County residents. The Coalition is housed at Health Net of West Michigan, an organization that unites health systems, providers, and individuals to improve the health outcomes of Kent County's most vulnerable citizens.

The KCOHC will serve as a resource to recipients during the grant cycle by providing access to educational materials, facts, and data as available regarding oral health. The funding cycle will commence on August 1, 2019 and conclude on January 31, 2020. For more information or inquiries about this grant program or the Kent County Oral Health Coalition, please contact Shannon Kaza at [skaza@healthnetwm.org](mailto:skaza@healthnetwm.org).

Sincerely,

Shannon Kaza  
Oral Health Coordinator  
Health Net of West Michigan
